**THOMAS TELFORD
"Colossus of Roads"**

Presented by:

Professor Roland Paxton
FICE, FRSE.

**Professor of the School of the Built Environment
Heriot-Watt University, Edinburgh**

5.30 for 6pm MON. 12th MARCH
in the AUDITORIUM of the
NEW SHETLAND MUSEUM
AND ARCHIVES, HAY'S DOCK

This year is the 250th anniversary of the birth of Thomas Telford who was one of the greatest British civil engineers. His work in Scotland alone involved 1200 miles of road, the Caledonian and other canals, water supply to Edinburgh, Glasgow and Wick, 43 churches (incl. Quarff Kirk and Manse and Sandwick Manse) and Aberdeen, Ardrossan, Dundee, and other Highland Harbours
In the lecture Professor Paxton will review Telford's life and achievement both in the UK and abroad..
